Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 1-41 are rejected under 35 U.S.C. 103(a) as being unpatentable over Kinney, Jr. et al.(US 6871171B1).

As per claims 1-41: Kinney et al. shows a ranking and allocation electronic auction system in which the top few bidders are awarded based on a pre-established methodology(Abstract, col. 4, lines 10-55). However, Kinney et al. does not show volume of services. However, whether the auction is for services or goods would not impact the bidding strategy. Thus, it would have been obvious to one with an ordinary level of skill in the art to employ Kinney et al.'s method to get the benefit of allocation and ranked electronic auction bidding.
